

OFFICIAL ANNOUNCEMENT

Apex Outdoors Launches New Landscape Design and Build Company in Atlanta, Georgia

Atlanta, GA – July 30, 2025 – Apex Outdoors proudly announces its official launch, bringing innovative landscape design and construction services to the Atlanta area. Founded in early 2025 by brothers Cody Eades, a seasoned landscape architect, and Cooper Eades, experienced in construction sales, Apex Outdoors combines years of expertise to create stunning outdoor spaces for both residential and commercial clients.

Cody Eades, a graduate of Mississippi State University with a dual degree in both landscape design and landscape contracting, has an impressive portfolio, including notable past projects such as assisting with the Africa Savanna habitat installation at Zoo Atlanta and the design and installation of numerous commercial entrances and common area spaces for hospitals, universities and residential builders in the Atlanta area. His passion for landscape architecture is also reflected in his high-end residential designs, which feature luxurious elements such as spas, pools, hardscapes, outdoor kitchens, and fire pit areas.

Cooper Eades, with a degree in speech communication and business from the University of Kentucky, brings a unique perspective to the company, leveraging his background in construction sales to ensure seamless project management and client satisfaction.

“Cody and I are excited to combine our skills to create beautiful, functional outdoor spaces that enhance the lives of our clients,” said Cooper Eades. “At Apex Outdoors, we believe in transforming landscapes into personal retreats, fostering a connection between people and the outdoors.” The company is ready to serve homeowners and businesses throughout Atlanta, with a focus on personalized service, reliability and creativity.
